Re: Windfall Mine
ACT/037/010

Dear Mr. Tetting:

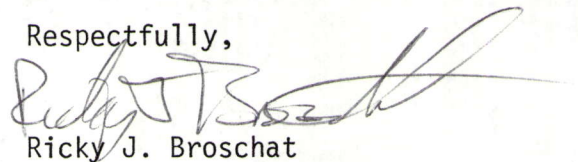

I am writing in response to your June 7, 1982 letter concerning a review of the above referenced mine's file. I have found no major changes with your "Application History" for this mine.

Enclosed is a copy of the 1980 Annual Operations and Progress Report which you've requested. I have been unable to locate a copy of the 1977 Report. Also enclosed is an updated surface map of this mine showing the one and only building on site.

In accordance with Rule M-7 Atlas Minerals hereby gives notice of a Temporary Suspension of operations at the Windfall Mine. This suspension is due to current market conditions and is expected to last at least six months.

This should complete the file review for this mine, please contact me with any questions you may have.

Respectfully,

Ricky J. Broschat

RE: Annual Reports 1980 for:
Ivy, Probe, Velvet, Patti
Ann, Rim Columbus, Radium
King, Locust Spider, Wind-
fall, Dunn Standard #2,
Pandora, Louise.

Dear Mr. Smith:

Enclosed are the annual reports for 1980, including revised surface maps for the Velvet and Probe Mines.

As you can see no mine site reclamation has been done during the year since all mines are either operating or awaiting reopening. Each mining operation is preceeding in accordance with the originally submitted and amended mining and reclamation plans.

Reclamation work to date has been confined to drill site grading and reseeding.

If you have any questions please call.

Respectfully,

Ricky J. Broschat
Reclamation Scientist
